## Not Just a Little Gem, but the best in Cheshire....

It gives me great pleasure to announce that on Tuesday 14<sup>th</sup> January at the Grange theatre in Hartford, Plumley Station was the overall winner of the Best Kept Station in Cheshire competition.

This competition is much larger than I thought when we entered our station. It uses the pre 1974 boundaries of 'Old Cheshire' so includes parts of Trafford, Merseyside and Stockport. There were 17 awards covering specific areas before the overall winner was announced.

We saw these go to Crewe, Stockport and other manned stations who have resources we simply don't. So to be selected as the winner is an outstanding achievement for our community and all those who have given time and resources to achieve it.

I must again thank Andy Yates and his staff at Plantation for the huge amount of work and

commitment they put into the project. Thanks also to the team at Meridian Health Coms who let use huge amounts of water during the dry summer and to the children of Lower Peover school whose fantastic art work was loved by the Judges. There are many others who worked hard behind the scenes and everyone involved has my thanks and respect.

The exciting thing is that Plumley Station is still a work in progress and will become more and more beautiful as the years pass. Andy and I are already planning what needs to be done this year and all you have to do is let me know if you would also like to be a part of the story of the Best Kept Station in Cheshire.

**Children's Corner**

*A January miscellany*

January was established as the first month of the year in the Roman Calendar. It was named after the god Janus (the latin word for door). Janus had two faces, allowing him to look backwards

into the old year and forwards to the new year at the same time. Janus was the 'spirit of the opening'.

Jan 1<sup>st</sup> 1927 – BBC began broadcasting its first programmes.

Jan 4<sup>th</sup> 1809 – Louis Braille was born, he was 3 yrs old when an accident caused him to lose his sight.

Jan 10<sup>th</sup> 1863 – The London Underground began operating

Jan 11<sup>th</sup> 1954 – The first televised weather forecast was broadcast featuring a presenter on screen.

Jan 14<sup>th</sup> 1986 – Motorist were required by law to wear seat belts.

Jan 27<sup>th</sup> 1756 – Mozart was born in Austria.

**The Golden Pheasant**

For those of you who have not met me, my name is Richard Casson and I have the privilege to be the General Manager of The Golden Pheasant. Returning to the area last year after a four year absence was like a home coming having previously been at the Bells of Peover for 10 years.

The tenancy at The Pheasant ended in 2013 and the pub returned to being part of the managed division of JW Lees Brewery. From the customers perspective this change isn't immediately obvious, we still offer the same fantastic ales and continue to serve freshly prepared food. Over the coming year this will enable us to make improvements to the Pheasant, have a more seasonal changing menu and offer some fantastic promotions.

I have been lucky to inherit some fabulous staff at the Pheasant, along with Christine and Rick our Assistant Managers the team are bubbly bright and friendly and I think this is reflected in the many repeat guests we have. Our regular tea time trade is made up of a group of faithful familiar local faces. Both the team and I are also keen to become more involved in village life and support local events.

We are fortunate to regularly host the Inner Wheel Ladies, the Gentlemen from Probus, Knutsford Motor Club and other local groups, this is something we look to continue and hopefully expand. We were honoured to host lunch for the members of St Oswald's Church just this month.

As well as offering the traditional elements of a pub, we are moving into the area of social media. Take a look at our website [www.goldenpheasantatplumley.co.uk](http://www.goldenpheasantatplumley.co.uk). Until the end of January registering your address would entitle you to a 25% voucher off your next visit. We also run spot promotions on twitter @Goldpheasant, our last being a free pint of the new Drayman's Cheer Ale, our current seasonal bitter. The website also holds our current menus with our Burns Night and Valentines menu both about to be uploaded.

The team and I look forward serving you both regulars, locals and new guests too in 2014.

**Culture at Curzon**

Throughout the new year, alongside their film programme, Curzon cinema Knutsford are continuing with their live screenings of theatre, opera and ballet. National Theatre Live will broadcast the Donmar Warehouse's production of Coriolanus, Shakespeare's searing tragedy of political manipulation and revenge on 30th January. This will be followed by the National Theatre's original

stage production of War Horse, broadcast live from London's West End to cinemas on 27th February. The Royal Opera House Live will show Marius Petipa's Giselle on 27th January and The Bolshoi Ballet's Jewels on 19th January. To find out more and book in advance, call into Knutsford Curzon or see [www.curzoncinemas.com/knutsford](http://www.curzoncinemas.com/knutsford).

**DON'T BE RAILROADED INTO IT!**

The strategic economic benefits are exaggerated and unproven.

It has a business case based on false assumptions.

It will commit future generations to huge subsidies, increasing the national debt.

It will benefit very few, at a time when a great many are expected to suffer.

It will not move much travel from planes or cars and assumes many more leisure journeys.

It will make our country more dependent on the London economy.

It is not a low carbon solution, it will increase energy consumption.

It will cause huge environmental damage.

It does not learn from the financial failure of HS1, the only comparable project.

It will crowd out crucial investment in transport, which is needed and beneficial.

It has alternatives that deliver greater benefits at less cost and less damage.

It ignores the Internet which is changing the way we communicate and interconnect.
